

Photography Policy

Dark Peak Juniors is essentially a celebration of athleticism. Dark Peak Juniors would like to use photos and videos taken during our activities to promote the club activities and to celebrate the endeavours and successes of members.

On the club website we hope to have many opportunities to use photographs of activities to enhance the content. We would like to have permission from parents/guardians before publication of images that includes an identifiable image of your son(s)/daughter(s), whilst undertaking club activities. We would request that you consider allowing us to use media content featuring your child, though we do understand that you may not wish your child to identifiably appear in published pictures. The image permissions are included in the membership forms.

Images taken and controlled by the club may be published on our own website, newsletter, on the closed WhatsApp & Facebook groups, or in publicly available social media. Occasionally we may forward images to The FRA, or to the local press. Where we publish media we will take care to ensure that full names are not included in the related article or caption. We follow these guidelines for publication:

Dark Peak Photographic Guidelines

- Do not publish identification personal details with any image, including in the image meta data;
- Consider the content of all picture to be good taste before publication;
- Images are only to be used for the promotion of club activities and celebration of achievements;
- In all instances where a request is made by a parent of a child featured to remove an image this will be done as quickly as possible.
